## SKILLS

## ABOUT ME

*Committed and driven software developer with sound understanding & experience of software development and its life cycles. Keener to use best tools for task at hand.*

I have abilities to utilize sound organizational and planning skills to deliver assignments within set time frames to high-quality. Commercially I mostly work on full stack web projects in DotNet. I have used various JavaScript frameworks like NodeJS for RESTful API, ReactJs, Angular, jQuery and Ionic for front-end development. My other area of interest is data analysis using machine learning and Big Data.
